for Business People

**Better English for Business People**  
Phone + Online Course

The course starts when our coordinator calls students before the first lesson. She checks their level, sets class times and explains how to use the online section.

Every week students receive a phone call at the arranged time and do the activities that come up on the website.

The objective? Improve oral English and structures with a flexible mix of telephone conversation and online work.

**SAMPLE UNITS**

**Unit 1 The Media**

How can we use English to speak about the media? Reading and listening to the news is a great way to improve your English but there is more to learning a language. We will watch a video, go through several exercises and read a BEC article before discussing the media in our telephone lesson.

**Unit 7 Decisions**

At the beginning of this unit we will watch a politician speaking in public and follow on with activities related to choosing alternatives. We'll read a piece on Spain from TimesOnline and talk about decisión-making.

**Unit 15 The World of Work**

Here you will describe your company and job to colleagues and to clients. We will then move to an exercise with some of the expressions needed for the task above. Grammar will focus on applying the simple and progressive tenses in the right context.

**BETTER ENGLISH FOR BUSINESS PEOPLE**

Better English for Business People is aimed at intermediate and advanced students who need English for their job.

**Dates:** Courses start in September and March every year.

**Cost:** 420 Euros. This course can receive the benefit of Fundación Tripartita subsidies.
